

DISPLAY CREATIVE GUIDELINES

Requirements and Recommendations

Send files as email attachments or via a file sharing service (Dropbox, Google Drive, Onedrive, etc.). Do not embed files in the email body – this increases the file size.

DISPLAY ADS

Requirements

- Must include business name and/or logo.
- Must link to a landing page with relevant messaging corresponding with the ads.
- All ads with white backgrounds must include a border.
- **Advocacy/Political** ads must include a “Paid for by” message to make it clear what group the ad is being supported by.
- **Cannabis** ads must include legal details.
- **Video** and **audio** must be user initiated.
- **HTML5** files should contain a valid exit function.
- **Animated gif** files are not recommended, contact us for more details.

Dimensions	File Type	Max File Size
970x250	JPG	50kb
	HTML5	200kb Animated: 3 Loop & :15s max
300x600	JPG	50kb

	HTML5	200kb Animated: 3 Loop & :15s max
300x250	JPG	40kb
	HTML5	200kb Animated: 3 Loop & :15s max
320x50	JPG	15kb
	HTML5	50kb Animated: 3 Loop & :15s max

WALLPAPER

Wallpaper Testing Tool: <https://mediasolutions.seattletimes.com/wallpaper-test>

Requirements

- Test your files for adherence to Safe Area specifications.
- Logos and text are limited to the **right side only** and required to be in the 142x700 “Text Safe Area,” including prominent logos/text visible in imagery, with limited exceptions.¹
- Focal imagery must be oriented for visibility in the ‘Image Safe Area’ (areas in both left and right files that are 1596x768 for the home page or 1366x768 on a section page).
- The homepage wallpaper is visible at browser widths of 1510px or higher. All other site wallpaper is visible at browser widths of 1280px and higher.
- A single background hex code must be provided to ensure a seamless presentation of the wallpaper on larger monitors.²
- No tiled backgrounds.
- Advertiser must specify which image goes on the left and right.

Dimensions	File Type	Max File Size
445x1036 per panel	JPG ONLY	175kb

Recommendations

- The ad should be designed to suggest a single coherent image or experience across both panels.
- ¹ Exceptions include incidental branding/names on sports uniforms worn by people featured in photo imagery and incidental branding/signage in landscape photos that is clearly not intended as messaging.
- ² For best effect, the bottom edges of the creative should blend to the gutter color.
- Logo and messaging is not required when wallpaper is part of a takeover.

All wallpapers are subject to creative review and feedback prior to acceptance for launch. Design assistance is available.

DISPLAY CREATIVE GUIDELINES

HOMEPAGE TAKEOVER TOP UNIT ONLY

Requirements

- **Background hex code required** to ensure a seamless presentation of ad creative.
- **A background image** (png or jpg) can be used with a background color.
- **Background image** is horizontally centered.
- **Background image** should not detract from the ad creative or contain text or logos.
- **Background image or hex code** should have a contrast ratio of at least 4:5:1 between background image and foreground text to meet accessibility standards.
- **Background image** size is 1920x250 and will responsively resize down to fit the device.
- **Animated gif** files are not allowed.
